Professional Experience:

Nov 2008 – Present

ABC LTD

ABC is New Zealand's most diversified energy company with interests in oil, condensate, natural gas, landfill gas, LGP, steam, coal and electricity.

Electricity Account Executive

Joe was responsible for the provision of sales support across 3 business entities: ABC, DEF Energy and GHI Energy.

Responsibilities:

ABC Ltd

Account management of ABC's Major Customers

Identify new business opportunities within the industrial and commercial sectors

Management of specific marketing campaigns and arranging client functions through the use of corporate box/members seats

Contract re- negotiation

Interface between customers and Lines Company regarding supply issues, pricing and upgrades

Analysis of electrical load and provision of technical feedback on possible cost savings

DEF Ltd

Sole responsibility for reviewing pricing and developing new contract documentation for 80 major industrial and commercial customers

Tariff analysis and development for residential and light commercial customers

Undertake review of metering systems and services to ensure compliant with current regulations as well as with a view to cost reductions

Assisting local representatives to conclude contract negotiations as required

GHI Ltd

Market research in initial development and launch of new energy retailer

Management of specific marketing campaigns Management of ground level sales force Development of Retail Agents, Energy Broker

Provide key account management and technical support for customer services where required

Achievements:

Successfully retained ABC and DEF Energy's market share within an extremely competitive environment and was instrumental in developing GHI Energy.

Mar 2005 – July 2008

XYZ LTD – WELLINGTON

XYZ Ltd is the largest engineering supply company in New Zealand with twenty branches nationwide and a turnover of \$80 million.

Feb 2006 – July 2008

Machine Tools Sales Manager – Central Region

Responsibilities:

Sales and marketing of customised capital equipment within the engineering sector

Achievement of sales and gross profit budgets for the above products for five XYZ branches

Assessment of customer requirements and presentation of business proposals on appropriate products, options, technologies and service to meet their needs

Provide product and sales training to XYZ branch personnel

Proactively build, manage and maintain relationships with key accounts customers.

Provide a high level of customer service in a professional manner

Achievements:

For the 1997 calendar year Joe trebled the previous years sales and obtained market share within the product group he was responsible for. This was achieved by effective market coverage, superior sales skills and the highest level of customer service.

Mar 2005 – Feb 2006

Branch Manager – Wellington

Responsibilities:

Establishment of GP, sales and expense budgets

Overall profitability of the branch

Continual monitoring of customer and competitor activities to ensure the branch/company was able to take advantage of changes in the market

Recruitment, training, motivation and control of all branch staff

Annual staff review and appraisals

Setting of branch stock levels

Achievements:

Dramatically improved moral through leadership by example, effective communication and encouraging all staff to become involved in decision making thereby creating a team environment. Put systems in place to accurately measure a salesperson's performance and to provide for accountability.
